CERTIFICATIONS

EnergyTech has been recognized as a qualified certification organization for energy industry domains that made the institute a favorable and reliable certification body.

Asset/Equipment Certification

Contractor Workforce Qualification Assurance Program (CWQAP) Certification

Industrial Job Certification (IJC)

CAPABILITIES & EXPERIENCE

Can be delivered at company site and conduct assessment on company equipment to ensure compatibility and compliance

Kingdom-wide coverage

Secure database system for certifications and issued cards

ASSETS CERTIFICATION

EnergyTech has been the sole institute approved to assess and certify heavy equipment operators for ARAMCO contractors since 2016.

The certification's main objective is to ensure the market is supplied with qualified operators to work safely for projects.

The total number of assessed heavy equipment operators reached:

31000+

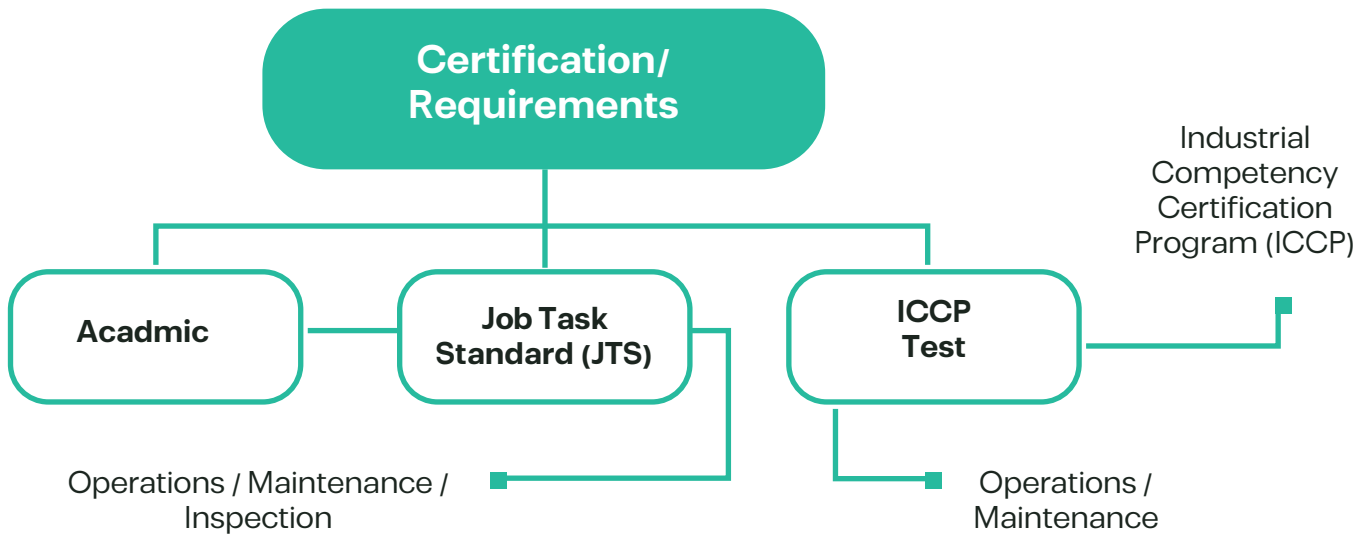

Conducted Certifications Assessments Locations

INDUSTRIAL JOB CERTIFICATIONS

In 2020, we established the Industrial Job Certifications (IJC) program to train employees from other companies.

The program aims to provide in-depth knowledge and help participants achieve positive outcomes. This initiative was put in place to ensure industry standards are met and positively impact the sector.
